PROJECTS

LAD Network (<https://ladnetwork.netlify.com/>)

Capstone Project | April 2019

- Created an advertiser platform for users to promote their products using our robust drag and drop ad creator as well as track analytics for ads
- Used React, Redux, Node, Express, and many other packages to provide a clean and concise application and user experiences

Streaming Network

Freelance Project | February 2019

- Used React, Redux, Node, Express, to create a hub for YouTube live streamers which interfaces with the YouTube Data API to fetch data
- Worked with a high-profile client to deploy a clean user experience for live stream viewers

HOBBIES

Interested in all forms of art
Music | Movies | Photography | Illustration

ABOUT
